

Maths

Counting activity- practise saying the days of the week. I have provided the song we sing in class on the website below to help you remember.

Timestables- Today we are going to practise our 2, 5 and 10 timestables. A copy of these were stuck into your home learning book. If you want to be creative you could create your own times tables matching game (question and answers), use a timer on your phone to see how many answers the children can get in 5 minutes or access Top Marks game 'Hit the button' online.

Once you have practised your timestables complete the quiz attached to our web page.

Reading

Listen to Dr Seuss on the loose being read on the 'worldbookday.com' website. Listen carefully to the story and list as many rhyming words that you heard as possible into your home learning book.

For example- 'look' and 'book'

Spelling

Read and learn these words, putting them into sentences.

'wild, bath, fast, class, improve'

English

You are going to become a journalist for the day. You are going to find out as many facts as you can about the people in your house. Write a list of questions that you are going to ask people at home. Remember to write their answers when you interview them later!

For example you might ask... What is your favourite food? What do you like to watch on TV? What country would you most like to visit? What makes you smile the most, etc.

Creative Activity (Optional)

Create a 'Thank you' card for someone at home who has been helping you to learn this week.
